

Lake Carnico Fish Habitat Sites

In the Winter of 2020, 4 fish habitat sites were created on Lake Carnico. GPS locations are available in the table to the right. Coordinates are provided in the 3 most commonly used formats: Decimal Degrees (D.d), Decimal Minutes (DM.m) and Decimal Seconds (DMS.s). Please input the most similar format (usually DM.m) into your Sonar/GPS Units. Actual site placement will be near this location, some searching using Sonar gear is likely needed.
