

THINGS HAVE COME A LONG WAY--Since the start of the dam core last August--above the completed dam, below the digging of the dam's core.

THE CARLISLE (KY.) MERCURY

LET'S HOPE FOR A WET WINTER--And it will probably take several of them to have the water lapping at the spillway openings for the 150 acre lake, two and one-half miles from Carlisle on the Gallows Hill road. When the picture was taken last week, workmen were just installing a metal frame-work over the spillway openings presumably to keep debris from
