Dear Dane A Garber

Enclosed are the analytical results for samples received by the laboratory 07/06/2023 11:35.

The results relate to the samples included in this report. Results reported herein conform to the applicable TNI/NELAC Standards and the laboratory's Quality Manual, where applicable, unless otherwise noted in the body of the report.

The test results provided in this final report were generated by each of the following laboratories within the Pace Network:

- Pace Analytical Services LLC Kentucky Lexington
- Pace Analytical Services LLC Kentucky Madisonville

If you have any questions concerning this report, please feel free to contact me.

#460210 Madisonville, KY #460291 Pikeville, KY

> This page is included as part of the Analytical Report and must be retained as a permanent record thereof.

Notes for work order 3072749

- Samples collected by PACE personnel are done so in accordance with procedures set forth in PACE field services SOPs.
- Results contained in this report are only representative of the samples received.
- PACE does not provide interpretation of these results unless otherwise stated .
- All Waste Water analyses comply with methodology requirements of 40 CFR Part 136.
- All Drinking Water analyses comply with methodology requirements of 40 CFR Part 141.
- Unless otherwise noted, all quantitative results for soils are reported on a dry weight basis.
- The Chain of Custody document is included as part of this report.
- All Library Search analytes should be regarded as tentative identification based on the presumptive evidence of the mass spectra. Concentrations reported are estimated values.

Qualifiers

T15

Sample receipt temperature outside 0 - 6°C; sample collected on same day as received; sample received on ice.

U

Target analyte was analyzed for, but was below detection limit (the value associated with the qualifier is the laboratory method detection limit in our LIMS system).
