

WEDCO District Health Department
Serving Harrison, Nicholas and Scott Counties

Carnico Beach is currently

CLOSED

due to water quality
conditions.

Our main goal is to make sure public facilities like this beach are safe for our community to use. Recent water tests have shown high amounts of E.coli in the water making it unsafe for swimmers. Per 902 KAR 10:120 we are required to close the beach until the levels lower and are maintained at a safe level.
